

AVALANCHE EXTREME DUTY LINERS

UNMATCHED STRENGTH & DURABILITY

Built to outperform under the toughest conditions.

- 100% Virgin UHMW-PE for maximum strength and longevity.
- Glass bead formulation throughout the liner delivers extreme abrasion resistance.
- Highest impact and abrasion resistance of any liner on the market.
- Engineered for highly abrasive materials like pig iron, auto fluff, rip rap, crushed glass, bottom ash, and foundry applications.
- Handles hot asphalt.
- silicone added for superior release
- Replace heavy stainless-steel floors with Extreme Duty liners and enjoy better protection and superior release.

HUGE SAVINGS

Avalanche liners are designed to boost performance and profits.

- Made from heavy-duty UHMW polyethelene with proven durability.
- Enhanced with silicone for exceptional release and wear performance — the best-releasing liner available.
- Reduce aggregate carry-back, increasing loads per day.
- Protect your dump bed to cut down on floor, hoist, and maintenance costs.
